**City of Quincy Municipal Load Aggregation Plan**

Dear Mayor Koch:

I am writing to inform you that the City of Quincy has completed its consultation with the Department of Energy Resources ("DOER"), pursuant to G.L., c.164, § 134(a) in the development of its Municipal Load Aggregation Plan, detailing the process and consequences of aggregation ("Aggregation Plan").

After examination of the City of Quincy's proposal, the DOER, on August 24, 2020, conducted a meeting by way of a conference call with: Shelly Dein, representing the City of Quincy, John P. O'Rourke, Director of Marketing and Municipal Affairs, Good Energy L.P. ("Good Energy"), and Scott Mueller, Attorney for Good Energy. In performing its review and in connection with these discussions, the DOER has provided technical assistance consistent with our charge under G.L. c.25A, § 6(11).

The DOER attests to the good faith effort made by City of Quincy and Good Energy in the consideration of this undertaking; the communications it has conducted with the City of Quincy's electric distribution company, National Grid; the development of a market-ready Energy Supply Agreement with licensed competitive suppliers; and the communications that have occurred with the DOER. Our exchange of views has reached a satisfactory conclusion.

The DOER is satisfied that the City of Quincy and Good Energy are undertaking this effort with realistic expectations of the municipal benefits that may accrue to future Aggregation Plan subscribers. Similarly, we recognize the commitment of the City of Quincy as it seeks to bring value to the community through this public aggregation.

Sincerely,

A handwritten signature in black ink, appearing to read "B. Sullivan", written in a cursive style.

Brian Sullivan  
Director  
Green Communities Division
