

QUINCY COMMUNITY ELECTRICITY (QCE)

Frequently Asked Questions

- What is Quincy Community Electricity?** Quincy Community Electricity is our City's new electricity supply program. It is designed to provide residents with new electricity supply and options that feature competitive prices, longer-term price stability and more renewable energy (though savings cannot be guaranteed). This program plan was submitted to the Department of Public Utilities in January 2021 and was approved in January 2024. Nearly 170 other cities and City's in Massachusetts, including Milton, Somerville and Malden have similar programs.
- When does it start?** The City chose Dynegy to provide the program's electricity starting June 2024. All program prices are fixed for 42 months until December 2027.
- How do I participate?** The answer depends on your current electricity supplier:
 - I am using National Grid Basic Service** (most residential customers) - Anyone currently using National Grid Basic Service supply is eligible for automatic enrollment and will receive a letter in early April informing them of their options and how to opt-out (i.e. not participate) if desired. The deadline to opt-out before the program begins is May 15, 2024 for cycle 1 customers and May 20, 2024 for customers from the other cycles. Those that do not opt-out will begin receiving electricity from Quincy Community Electricity in June 2024.
 - I have chosen another electricity supplier** already - Anyone that has proactively chosen their own electricity supplier will not be automatically enrolled in the program; however, these customers may sign up for the program at any time (please check with your current supplier for any cancellation penalties). To join, use the form at quincycea.com or call (866) 220-5696.
- Do I have to participate?** Participation is voluntary. Customers may opt-out at any time, without penalty, before or after the program begins. To opt out, do any one of the following:

Return (by mail) the opt-out card mailed to your home or business *or* Call Quincy's supplier, Dynegy at (866) 220-5696 *or* Submit the opt-out form at quincycea.com
- Will this program cost more or less than what I have now?** The City's primary offering, *Quincy Standard*, will cost less than the National Grid Residential Basic Service rate at launch, while also providing 10% voluntary renewable energy from New England. However, it is important to note that the City cannot guarantee savings compared to National Grid Basic Service. Quincy Community Electricity prices are fixed for 42 months through December 2027, but Basic Service prices change every six months for residential and commercial customers, and every three months for industrial customers. See table on next page for pricing of the Quincy options.
- Can I switch between options in Quincy's program?** Yes. You can switch between any of the Quincy options at any time. To switch, use the form at quincycea.com or call (866) 220-5696.

6. **Where does voluntary renewable energy come from?** The voluntary renewable energy (i.e. the amount above and beyond the minimum required by the State) qualifies as Class I. Class I is the State's term for new, regional renewable energy. The voluntary Class I in Quincy's program is all located within New England and comes primarily from wind and solar projects.
7. **Why is this an automatic enrollment program?** The State law that enables municipal aggregation programs like Quincy Community Electricity, M.G.L. c.164 section 134(a), specifies that these programs are opt-out. This design was intended to give a Town or City enough buying power to attract qualified suppliers and negotiate favorable prices for the community (again, recognizing that savings cannot be guaranteed).
8. **What changes if someone participates in Quincy Community Electricity?** There are two parts to a National Grid electricity bill – (1) Supply and (2) Delivery. Enrolling in Quincy Community Electricity only changes the Supply part. National Grid will continue to provide all Delivery services, which includes responding to power outages.
9. **If I participate:**
 - a. **Will I get another bill?** No, there will still only be one electricity bill per month, sent by National Grid.
 - b. **What about Low-Income discounts or budget billing?** Customers in the Low-Income rate class will continue to receive their current percentage discount on the entire electricity bill. Budget billing customers also will continue to receive budget billing for their entire bill.
 - c. **What about solar and net metering?** Customers that receive solar electricity benefits from net metering credits, community shared solar or similar payments will continue to receive those benefits.
 - d. **What about Mass Save energy efficiency?** Customers who have access to Mass Save energy efficiency program benefits will continue to receive those benefits too.

Quincy Community Electricity Options

| | National Grid Basic Service (Residential) | Quincy Basic | Quincy Standard (automatic for eligible customers) | Quincy Premium |
|------------------------------------|---|---------------------------------|--|---|
| Price | 18.213 ¢/kWh | 13.394 ¢/kWh | \$13.804 ¢/kWh | 14.737¢/kWh |
| Voluntary Renewable Energy* | None | None | Adds 10% voluntary renewable energy (MA Class I RECs) | Adds voluntary renewable energy (MA Class I RECs) to total 100% |
| Duration | November 1, 2023, through July 31, 2024 | June 2024 through December 2027 | June 2024 through December 2027 | June 2024 through December 2027 |

The program cannot guarantee savings beyond the current term of National Grid Basic Service, as stated in the table above, because future Basic Service rates are unknown.

*Voluntary Renewable Energy is in addition to the State's required renewable energy content for all electricity supplies. The State's required renewable energy content is 62% in 2024. For more detail, see resources on www.quincycea.com.
